## Languages

**English** Fluent

**Mandarin** Mother Tongue

## Skills

**Languages:** C++, Rust, Python, Java, JavaScript

**Frontend:** React, HTML/CSS

**Backend:** Flask, REST APIs

**Database:** SQL

**DevOps:** Docker, Deployment/Hosting

**Tools:** Git, CI/CD

## Management

**Leadership:** 3–6 person teams

**Delivery:** prioritise

**Collaboration:** feedback loops

**Quality:** code review

**Communication:** stakeholder alignment

## Hackathons

Apr – May 2025

**Microsoft AI Agent**

Online

May – Aug 2023

**Web3 & AI Hackfest**

Melbourne, Australia

## EDUCATION

2021 – 2024

### Bachelor of Computer Science

SYDNEY · The University of New South Wales (UNSW)

**Key Courses:** Data Structures & Algorithms, Database Systems, Object-Oriented Design & Programming, Web Front-End Programming, Advanced C++ Programming, Modern Programming Problems with Rust

## WORK EXPERIENCE

May 2024 – Present

### Academic Tutor (C++ & Rust)

THE UNIVERSITY OF NEW SOUTH WALES (UNSW), SCHOOL OF ENGINEERING · Sydney, Australia

Instruct students in designing, building, and testing C++ and Rust programs; ran code reviews and provided actionable feedback. Explained how Rust ownership/borrowing prevents data races in concurrent code and guided students toward modern, widely-used practices.

Jun 2024 – Oct 2024

### Full-stack Web Developer (Contract)

JO-EN MEDIA (CLIENT) · Sydney, Australia

Built and shipped a production website with React + Flask; containerised the backend with Docker and deployed via Firebase Hosting. Implemented enquiry-to-email backend workflow and collaborated with a designer to deliver UI to spec.

Nov 2023 – Apr 2024

### Full-stack Web Developer (Contract)

AUSTRALIAN CHINESE SCHOLARS ASSOCIATION (CLIENT) · Sydney, Australia

Delivered an event management platform (React + Flask + SQL via phpMyAdmin), including authentication, profiles, and admin/user event workflows. Deployed on GoDaddy hosting and supported stability during handover.

## PROJECTS

May 2024 – Oct 2024

### CourseMaper (COMP3900)

SYDNEY, AUSTRALIA · UNSW

Led a 6-person team to build a web app that analyses course outlines and exam questions using Bloom's Taxonomy. Implemented backend parsing/classification for CLOs and questions using a pre-trained BERT model; added visual analytics. Applied TDD, CI/CD, and code reviews; iterated with client feedback through regular meetings.

May 2024 – Aug 2024

### SkillVerse (Web3 & AI Hackathon)

MELBOURNE, AUSTRALIA · Hackathon

Led a 5-person team to build an AI-powered decentralised certification platform using ReactJS and Solidity smart contracts. Implemented NFT credential issuing via IPFS and used OpenAI API to generate an inclusive Skill Tree diagram from user input. Awarded Aspiring Entrepreneur and Best Presentation.

Sep 2024 – Dec 2024

### MistWalker (Netease KK Game Dev Contest)

REMOTE · Game Dev

Led a 3-person team to build a top-down cooperative survival game using Y3 Editor. Implemented core systems including movement, damage, UI (static & dynamic), buffs, and item/unit mechanics; shipped under contest constraints.
